

ATIP Request – Access Logs for My CPIC Record

To: Access to Information and Privacy Coordinator

Subject: Request for Audit Logs and Access History Relating to My Personal Information in CPIC

Dear ATIP Coordinator,

Pursuant to the applicable federal or provincial Access to Information and Privacy legislation, I respectfully request copies of all records documenting access to my personal information contained within the Canadian Police Information Centre (CPIC) and any associated police information management systems.

Specifically, I request:

All audit logs, access logs, user activity logs, or system-generated records identifying every instance in which my personal information was accessed.

For each access, please provide, where available:

Date and time of access;

Police service or agency responsible for the access;

Originating detachment, division, or office;

User identification number, badge number, or employee identifier (where disclosure is permitted);

The purpose or reason recorded for the access;

Transaction type (view, modify, create, print, query, etc.);

Any associated occurrence, incident, investigation, or file number linked to the access.

Copies of any internal reviews, audits, investigations, complaints, or reports concerning unauthorized or inappropriate access to my personal information.

Copies of any notifications or correspondence concerning suspected or confirmed privacy breaches involving my personal information.

Copies of any policies, directives, or procedures relied upon in determining whether access to my records was authorized.

If portions of these records are exempt from disclosure, I request that all reasonably severable portions be released pursuant to the applicable legislation.

If my personal information exists in multiple databases or repositories maintained by your organization in addition to CPIC, I request that this application be interpreted broadly to include all corresponding audit logs and access records.

If another institution has custody or control of any responsive records, I request that this application be transferred to the appropriate institution or that I be advised accordingly.

Please contact me if clarification is required to process this request.

Thank you for your assistance.

Respectfully,

Name: _____

Date of Birth: _____

Current Address: _____
