

April 15, 2026

Dear Premier Holt,

I am writing you in my capacity as Member of the Legislative Assembly for Arcadia—Butternut Valley—Maple Hills to ask that the Lieutenant-Governor in Council consider the appointment of a commissioner to hold an inquiry into a matter impacting a constituent of mine. This consideration request is made in reference to Section 2 of the *Inquiries Act*, whereby “The Lieutenant-Governor in Council may cause a commission to issue under the Great Seal to one or more persons to hold an inquiry into and concerning any matter connected with the good government of the Province, the conduct of any part of the public business, the administration of justice, or any matter that the Lieutenant-Governor in Council deems to be of public interest.”

The matter under consideration for the appointment of a commissioner and the relevant facts and allegations are outlined as follows:

The constituent alleges a prolonged pattern of institutional misconduct spanning multiple sectors of the Province of New Brunswick over an extended period, beginning in childhood and continuing into adulthood.

The allegations include:

- Improper and coercive conduct within child welfare and/or medical decision-making processes during minority, resulting in long-term harm
- Professional misconduct by a legal representative (Joan Wright), supported by a documented disciplinary finding, contributing to adverse outcomes and loss of familial contact
- Subsequent interactions with the justice system marked by alleged procedural irregularities, including:
 - Denial of full disclosure
 - Limitations on access to a fair hearing
 - Concerns relating to habeas corpus and arbitrary detention

- Allegations of judicial bias and misconduct in proceedings involving the Court of King's Bench (including conduct attributed to Justice Kenneth Oliver)
- Concerns regarding policing conduct, including
- Coercive threats
- Failure to apply trauma-informed approaches despite documented PTSD diagnosis
- Actions perceived as retaliatory or disproportionate
- Allegations of systemic coordination or alignment between institutional actors (legal, judicial, and policing), resulting in compounded harm and barriers to remedy
- Ongoing obstruction or resistance encountered when seeking accountability, review, or redress through available legal and administrative channels.

The constituent further asserts that these issues raise broader concerns respecting:

- The administration of justice
- The conduct of public institutions
- The protection of Charter rights
- Public confidence in the integrity of provincial systems.

Given the duration, cross-sector involvement, and seriousness of the allegations, the matter may be reasonably considered to extend beyond an individual grievance and into issues of public interest warranting independent review.

The constituent is prepared to provide supporting documentation, records, and evidence for examination under a formal inquiry process.

I appreciate your time and consideration of the matter presented before you. I await any response on behalf of yourself or any other member of the government in regard to any decision that is made regarding this request for consideration.

Sincerely,
Don Monahan
